

Current Schedule updated 31 August 2021

Kursledare: Matt Low och Maria Andersson

Where will I be?

Because of ongoing uncertainty with COVID-19, many of the lectures are planned to be delivered as virtual interactions over Zoom. However we understand the importance of face-to-face meetings and discussions, so the introductory meetings and ‘Problem-Based Learning’ modules are planned to be held on the SLU campus in Ultuna (with one group on Zoom for Covid at-risk students). Please NOTE that these locations might change because of this uncertainty and so we ask that you regularly check the schedule for updates...and be a little forgiving if these changes have to happen :). We’ll update Zoom links and room locations via the course platform (CANVAS) during the course; so keep an eye on the ‘General Information’ module and schedule. We’ll use the same Zoom link for the course lectures, and another link for the course PBL and project work.

What must I attend?

In the Schema (below) you will see some times and days highlighted in grey (med text i fet stil). These are obligatoriska. The lectures (highlighted in blue) form the basis of the course and you are strongly encouraged to attend these. Because they will be delivered over Zoom they will also be recorded and so you will be able to access them later via the course platform (CANVAS) if you miss them. We will go through the details of what you need to do in the introduction to the course and in the assessment criteria. Don’t panic, we’ll make sure you know what is going on.

Språk / language

You might have noticed I am writing this in English (sorry, that’s me...Matt). This course will be in both Swedish and English. My lectures will be in English, and many of the guest lectures will be in Swedish. The Problem-Based Learning group work and project work (with Maria) will be in Swedish. Thus you will get a good exposure to the concepts this course covers in both languages, which is really valuable when you are accessing published material online or in textbooks and for communicating with your colleagues in the future. I understand that English can feel a little scary for some of you at first...but it’s ok to feel that way. We’ll take it slow and you’ll be able to discuss and ask questions in Swedish during my lectures. The course is designed to help build your confidence and to inspire you, and we’ll do our very best to ensure you feel that way (in whatever language we are using at the time).

Lectures and Modules

Please note that lectures and discussions will start at the time specified (not 5 minutes after), so please try to be on time. Sometimes lectures and group work may finish earlier than mentioned in the schedule.
