

Current Schedule updated 25 July 2022 (Preliminary...to be updated)

Kursledare: Matt Low och Claes Anderson

Kontakt: matt.low@slu.se och claes.anderson@slu.se (or message us through CANVAS)

Where will I be?

Currently all aspects of the course are scheduled to be given on campus at SLU. However, occasionally because of COVID-19 or other unforeseen circumstances, it might be necessary that a lecture is rescheduled to a zoom meeting. We'll update Zoom links and room locations via the course platform (CANVAS) during the course; so keep an eye on the 'General Information' module and schedule. Don't worry, we'll also send out group messages to let you know if these changes occur. Be aware that course schedules are not 'set in stone' and some changes may occur. We'll let you know when these happen.

What must I attend?

In the Schema (below) you will see some times and days highlighted in grey (med text i fet stil). These are obligatoriska. The lectures (highlighted in blue) form the basis of the course content and you are strongly encouraged to attend these. However, if you miss a lecture we have recorded many of these last year and you will be able to access these pre-recorded versions of the lectures via the course platform (CANVAS). We will go through the details of what you need to do in the introduction to the course and in the assessment criteria. Don't panic, we'll make sure you know what is going on.

Språk

You might have noticed I am writing this in English (sorry, that's me...Matt). This course will be in both Swedish and English. My lectures will be in English, while many of the guest lectures will be in Swedish. The Problem-Based Learning (PBL) group work and project work (with Claes) will be in Swedish. Thus you will get a good exposure to the concepts this course covers in both languages, which is really valuable when you are accessing published material online or in textbooks and for communicating with your colleagues in the future. I understand that English can feel a little scary for some of you at first...but it's ok to feel that way. We'll take it slow and you'll be able to discuss and ask questions in Swedish during my lectures. The course is designed to help build your confidence and to inspire you, and we'll do our very best to ensure you feel that way (in whatever language we are using at the time).

Lectures and Modules

Please note that lectures and discussions will start at the time specified (not 5 minutes after), so please try to be on time. Sometimes lectures and group work may finish earlier than mentioned in the schedule.

Datum	Tid	Moment*	Ansvarig	Lokal
Vecka 35				
Må 29/8		Välkomnande och upprop	Claes Anderson	Audhumbla - VHC
Ti 30/8	9:00 – 12:00	Programintroduktion + fotografering	Claes Anderson	Aulan - Undervisningshuset
