

FÖ0496 Leadership and entrepreneurship in sustainable development Schedule (Updated 2025-06-18)

Teachers

JJ: Josefina Jonsson (josefina.jonsson@slu.se)

EM: Erik Melin

RF: Richard Ferguson

Info

In addition to the scheduled activities, time has been allocated for reading the literature and working on the two course projects. Please note that it is the students' responsibility to plan and manage this work outside of the scheduled sessions. While 45 hours are formally scheduled, the course workload totals 360 hours. This distribution reflects the significant amount of independent study and the quality of project work expected at master's level.
