Dear Student,

As you can see, the schedule is preliminary but the outline of the course is set. This means that the themes are set and we are almost done in closing the deals in our contacts with the lecturers. There might be minor changes in the schedule which means that a lecture could change place with another lecture or a lecture could replace a seminar. Our aim is as few changes as possible within the scheduled days as they are today. Updates on the schedule will be shown on the Canvas page.

Kind regards from the course-team, Patrik Olsson, Anna Petersson, Anna Jakobsson and Åsa Klintborg Ahlklo.
