Environmental Perception and Experience

MP0004

All compulsory literature will be available either as direct downloads or as links from our digital platform Canvas. If you want the actual physical books, they can normally be bought through online bookstores, although new copies of Gifford's book are probably only available directly from the publisher: https://optimalenvironments.com/.

Additional journal articles

Additionally, scientific journal papers will be used in course assignments later on in the second half of the course. These will be announced later and will all be available via the SLU library or through the online digital platform Canvas.

Notes on availability

Access to e-books, articles from scientific journals and some search engines normally require a connection through the SLU domain (slu.se). This can be achieved either directly at the SLU campuses or indirectly (e.g. at home) via VPN. Instructions on how to connect to the SLU network through VPN can be found here: https://student.slu.se/en/study-support/it-support/support/access-to-databases-requires-vpn/
